

# Ideal Plant Nutrient Balance

# 20 Elements

Anions (except H)  
(Anions carry (-) charge)

Cations (except B, Cl, Mo,?)  
(Cations carry (+) charge)

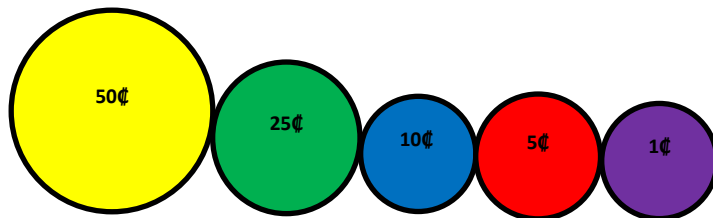

pH=6.5

C= Carbon  
O=Oxygen  
H=Hydrogen  
N=Nitrogen  
P=Phosphorus  
S=Sulfur

Ca=Calcium  
Mg=Magnesium  
K=Potassium  
Na=Sodium

Fe=Iron  
Cu=Copper  
Zn=Zinc  
Co=Cobalt

B=Boron  
Si=Silicon  
Se=Selenium  
Mo=Molybdenum  
Cl=Chlorine

Correct change for nutrient and pH balance using cations (10 micronutrients = 10 pennies)

## The ABCs of Full Fertility

A=Ample Amount  
B=Balanced Proportions  
C=Complete Array
